IASB's reasons for amending IFRS 11 in May 2014

IN4A In May 2014 the International Accounting Standards Board amended IFRS 11 to provide guidance on the accounting for acquisitions of interests in joint operations in which the activity constitutes a business.

...

IN9A This IFRS requires the acquirer of an interest in a joint operation in which the activity constitutes a business, as defined in IFRS 3 *Business Combinations*, to apply all of the principles on business combinations accounting in IFRS 3 and other IFRSs except for those principles that conflict with the guidance in this IFRS. In addition, the acquirer shall disclose the information required by IFRS 3 and other IFRSs for business combinations.

Paragraph 21A is added. Paragraphs 20–21 have been included for ease of reference but are not amended. New text is underlined.

Joint operations

- 20 A joint operator shall recognise in relation to its interest in a joint operation:**
- (a) its assets, including its share of any assets held jointly;**
 - (b) its liabilities, including its share of any liabilities incurred jointly;**
 - (c) its revenue from the sale of its share of the output arising from the joint operation;**

- (d) **its share of the revenue from the sale of the output by the joint operation; and**
- (e) **its expenses, including its share of any expenses incurred jointly.**

21 A joint operator shall account for the assets, liabilities, revenues and expenses relating to its interest in a joint operation in accordance with the MFRSs applicable to the particular assets, liabilities, revenues and expenses.

21A When an entity acquires an interest in a joint operation in which the activity of the joint operation constitutes a business, as defined in MFRS 3, it shall apply, to the extent of its share in accordance with paragraph 20, all of the principles on business combinations accounting in MFRS 3, and other MFRSs, that do not conflict with the guidance in this MFRS and disclose the information that is required in those MFRSs in relation to business combinations. This applies to the acquisition of both the initial interest and additional interests in a joint operation in which the activity of the joint operation constitutes a business. The accounting for the acquisition of an interest in such a joint operation is specified in paragraphs B33A–B33D.

In Appendix B, the main heading before paragraph B34 is amended and paragraphs B33A–B33D and their related heading are added. New text is underlined.

Accounting for acquisitions of interests in joint operations

B33A When an entity acquires an interest in a joint operation in which the activity of the joint operation constitutes a business, as defined in MFRS 3, it shall apply, to the extent of its share in accordance with paragraph 20, all of the principles on business combinations accounting in MFRS 3, and other MFRSs, that do not conflict with the guidance in this MFRS and disclose the information required by those MFRSs in relation to business combinations. The principles on business combinations accounting that do not

conflict with the guidance in this MFRS include but are not limited to:

- (a) measuring identifiable assets and liabilities at fair value, other than items for which exceptions are given in MFRS 3 and other MFRSs;
- (b) recognising acquisition-related costs as expenses in the periods in which the costs are incurred and the services are received, with the exception that the costs to issue debt or equity securities are recognised in accordance with MFRS 132 *Financial Instruments: Presentation* and MFRS 9;¹
- (c) recognising deferred tax assets and deferred tax liabilities that arise from the initial recognition of assets or liabilities, except for deferred tax liabilities that arise from the initial recognition of goodwill, as required by MFRS 3 and MFRS 112 *Income Taxes* for business combinations;
- (d) recognising the excess of the consideration transferred over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed, if any, as goodwill; and
- (e) testing for impairment a cash-generating unit to which goodwill has been allocated at least annually, and whenever there is an indication that the unit may be impaired, as required by MFRS 136 *Impairment of Assets* for goodwill acquired in a business combination.

B33B Paragraphs 21A and B33A also apply to the formation of a joint operation if, and only if, an existing business, as defined in MFRS 3, is contributed to the joint operation on its formation by one of the parties that participate in the joint operation. However, those paragraphs do not apply to the formation of a joint operation if all of the parties that participate in the joint operation only contribute assets or groups of assets that do not constitute businesses to the joint operation on its formation.

¹ If an entity applies these amendments but does not yet apply MFRS 9, the reference in these amendments to MFRS 9 shall be read as a reference to MFRS 139 *Financial Instruments: Recognition and Measurement*.

B33C A joint operator might increase its interest in a joint operation in which the activity of the joint operation constitutes a business, as defined in MFRS 3, by acquiring an additional interest in the joint operation. In such cases, previously held interests in the joint operation are not remeasured if the joint operator retains joint control.

B33D Paragraphs 21A and B33A–B33C do not apply on the acquisition of an interest in a joint operation when the parties sharing joint control, including the entity acquiring the interest in the joint operation, are under the common control of the same ultimate controlling party or parties both before and after the acquisition, and that control is not transitory.

In Appendix C, paragraph C1AA and paragraph C14A and its related heading are added.
